RESCUED FROM DEATH.

The following statement of William J. Coughlin, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our readers. He says: "In the fall of 1876 I was taken with a VIOLENT BLEEDING OF THE LUNGS followed by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half dollar. I expended over a hundred dollars in doctors and medicines. I was so far gone at one time a report went around that I was dead. I gave up hope, but a friend told me of Dr. Wm. Hall's Balsam for the Lungs. I laughed at my friend, thinking that my case was incurable, but I got a bottle to satisfy them, when to my surprise and satisfaction, I commenced to feel better. My hope, once dead, began to revive, and to day I feel in better spirits than I have the past three years. "I write this hoping you will publish it, so that every one afflicted with diseased lungs will be induced to take Dr. Wm. Hall's Balsam For the Lungs, and be convinced that Consumption can be curred. I have taken two bottles ard can positively say that it has done more good than all the other medicines.
